

SPIRE-02-2016

## **COCOP**

**Full Title:** Coordinating Optimisation of Complex Industrial Processes

**Aim:**

The vision of COCOP is that complex process-industry plants are optimally run by operators with the guidance of a coordinating, real-time optimisation system.

**Concept:** The project's objective is to enable plant-wide monitoring and control by using the model-based, predictive, coordinating optimisation concept in integration with plant's automation systems.

**Start date:** 01/10/2016

**End date:** 31/03/2020
