Covestro 2019 Key Figures
Sustainable thinking and acting are the key to a brighter future.

Brighter to us means: a world in which the United Nations’ Sustainable Development Goals are realized.

Groundbreaking innovations and sustainable materials are needed in order to achieve this ideal.

This is why, to us, sustainability and innovation belong together. Both are core elements of our corporate strategy.
Innovation and sustainability in production & technology

Leveraging digitalisation

Covestro aims to leverage the opportunities of digitalization in all areas of the company: customer interactions, R&D and production & technology.

We focus on innovative and sustainable solutions with our long-term goal of circular economy in mind.

We foster cooperations with Universities and international research programs.

Engineering

Integrated Plant and Engineering Platform

Optimisation

Safe and efficient production

Control Technology

Fully automated processes
Forward-looking statements

This presentation may contain forward-looking statements based on current assumptions and forecasts made by Covestro AG.

Various known and unknown risks, uncertainties and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here. These factors include those discussed in Covestro’s public reports, which are available on the Covestro website at www.covestro.com.

The company assumes no liability whatsoever to update these forward-looking statements or to adjust them to future events or developments.
